

Easingwold Town Football Club

Fee Structure 2026-27

Due to on-going financial challenges at the club, we have made the decision to move away from the 'pay per play' approach and will now require training fees to be paid, regardless of attendance. This approach is in-line with all other clubs in our area, and indeed up and down the country. It removes the need for coaches to collect cash from each player each session and provides the Club with a fairer and more consistent way of collecting training and match fees

From September 2026 we will become a cashless club, moving to a more efficient and streamlined approach to collecting membership fees, training subs and match subs. Over the Summer, all parents will be asked to join TeamFeePay. We will use this to collect player membership details, and you will be required to sign-up for monthly payments.

Veterans and Walking Football Membership and Training subs:

£10 per month for eight months (1st September 2026 to 1st April 2027 inclusive)

Match subs:

These will be managed by the group, independently. This is to allow these fees to be used to cover match costs and on-going equipment needs.

NOTES:

- New players will get 2 free weeks
- In the event of long-term injury or illness, the committee will decide on any payment breaks
- Failure to make payments will result in you been withdrawn from training sessions, and matches where applicable, until the account is brought back up to date
- Fines if incurred by the club, such as those associated with yellow and red cards, will be added to the monthly payment schedule to recover the payment as soon as possible
- The above fees do NOT include summer training, adhoc sessions and tournament fees
